

University-Wide Agreement with Fisher Scientific (a part of Thermo Fisher Scientific) for Fisher Scientific branded items

Fisher Scientific (a part of Thermo Fisher Scientific) has been awarded as the University's preferred distributor for **Fisher Scientific (a part of Thermo Fisher Scientific) branded items only**, including equipment maintenance and repair. These items are to be ordered using the RU Marketplace Fisher Scientific punchout.

In support of the University's discretionary spending efforts, Strategic Sourcing, in collaboration with Rutgers business area leads, recently conducted a comprehensive sourcing event, searching for the best biomedical and scientific distributors. The University took into consideration cost, quality, service, innovation, response time, amongst other criteria. The new contract will provide Rutgers with value-added elements including cost reduction and the opportunity to reinvest savings back into Rutgers. Fisher Scientific provides a dedicated and collaborative sales support team that will help Rutgers with all their Fisher Scientific branded item needs. The primary support leads are Joseph "Joe" Meier and Mike Fox who may be reached via email or phone.
