Upcoming Jaggaer Release

With the Upcoming Jaggaer Release, Marketplace will look a little different in some areas. This release will be in effect as of July 26th, 2021. Two of these noticeable changes are on the Shopping Home page and on the Search pages.

Shopping Home Page

On the Shopping Home Page, the shopping bar will be elongated to the full size of the screen, and there will be a noticeable boarder around the Splashpage and the Punch-out section. The Punch-outs will be a bit "tighter" or smaller.
