

# Suppliers - Phase 1

	Supplier Name	Core Products / Value Prop
	A&D Weighing	A&D is a provider of Laboratory precision measuring equipment as well as services for maintaining and repairing balances, scales, indicators, viscometers, and moisture analyzers
	Alkali Scientific	Trusted partner focusing on Real-time and end-point PCR reagents  Liquid handling supplies and equipment  Bench-top laboratory equipment and instruments  Tissue culture plates, dishes, and flasks
	Ambeed Chemical	<b>Inventory of over 60,000 Products</b>  Ambeed's catalog contains major chemical categories catering to drug discovery. The current catalog consists of over 60,000 in-stock items, and that number continues to increase monthly. The online catalog is updated daily and synchronized with our stock availability. Among them are compounds that were previously unknown or commercially unavailable. In addition, we provide customers with bulk manufacturing and can source most materials.

	<p>Biosensis</p>	<p>Biosensis’ product range includes not only a continuing growing line of neuroscience research antibodies but also an extensive and expanding line of 200+ quantitative research ELISAs, tissue staining and cell visualization reagents, and purified proteins targeted for neuroscience and cellular disease research. Our antibodies and reagents have been used in a wide range of techniques including western blot, immunohistochemistry, FACS analysis, real time imaging with confocal microscopy, biological inhibition and cell culture and cloning. Finally, too, with a combined total of 340+ peer reviewed research publications and superb technical support and experience, Biosensis is able to offer a level of customer support and scientific expertise unmatched in the industry for Neuroscience and its related research fields.</p>
	<p>Biotech Rabbit</p>	<p>Molecular Diagnostics Enzymes, Antibodies and Reagents. Highly specialized in PCR and qPCR reagents.</p>
	<p>Cen-Med Enterprises</p>	<p>A client focused clinical and research laboratory distributor and manufacturer. Cenmed manufacturers lab consumables, reagents &amp; chemicals, equipment, and research lab supplies.</p>
	<p>Foxx Life Sciences</p>	<p>World leader in custom single-use systems (SUS) including tubing, bag, bottle, flask and carboy assemblies, filtration, fluid management, laboratory safety products, and glassware for the research, biotech, R&amp;D, Laboratory research and pharmaceutical</p>
	<p>Gemini Bio-Products</p>	<p>Gemini is a leading manufacturer and supplier of cell culture media, sera, and other reagents to the scientific community across academic research and the biotechnology, cell and gene therapy, and biopharma industries.</p>
	<p>Genesee</p>	<p>Genesee Scientific Corporation is a manufacturer and distributor of products to global life science research markets. With thousands of products available, its markets include pharmaceutical and biotechnology companies, colleges, universities shop Polyplus Transfection , Beckman APEX among many world class brands</p>

	<p>Gilson</p>	<p>A family-owned company developing liquid handling, purification, and extraction solutions with a focus on helping the life scientist.</p>
	<p>Greiner Bio One</p>	<p>Bio sciences is a technology partner to universities and research organizations, as well as to the diagnostics and pharmaceutical industries. BioScience is a leading supplier of specialist products for the analysis of cell cultures and microplates.</p> <p>Diagnostics specializes in the development of molecular-biological analysis methods. The field of DNA array applications ranges from human diagnostics to food technology.</p>
	<p>Labcon</p>	<p>Truly environmental practices Labcon, North America develops, manufactures, and supplies plastic products for labs. The Company offers pipet tips, centrifuge tubes, blood sample dispensers, organization tools, and other products. Labcon North America operates in the United States.</p>
	<p>Lucid Scientific</p>	<p>Lucid Scientific is a biotechnology tools company working to accelerate drug discovery and basic biological research by providing systems for real-time cellular analysis. Originally developed at MIT, Lucid's patented RESIPHER system monitors cellular metabolism via non-invasive optical sensors, streaming information to researchers in real-time via a collaborative web platform. The information provided by Lucid's systems saves time and enhances value to researchers performing millions of experiments annually. Headquartered in Atlanta, GA at the Advanced Technology Development Center (ATDC)</p>
	<p>MedChem Express</p>	<p><b>MedChemExpress (MCE)</b> offers a wide range of high-quality research chemicals and biochemicals (novel life-science reagents, reference compounds and natural compounds) for scientific use. We have professionally experienced and friendly staff to meet your needs. We are a competent and trustworthy partner for your research and scientific projects.</p>

	Oxford	Whether your lab requires pipettes or other lab equipment, such as centrifuges and vortexers, you can rest assured that Oxford Lab Products will give you cost effective, precise and durable products that will serve you for years to come.
	ProSci Antibodies	A leader in its field, ProSci's priority is to provide the highest quality monoclonal, polyclonal, and single domain antibody services in the industry. ProSci's expertise in antibody production, immunochemistry services, and biological research is realized through customizable services, innovative products, competitive pricing, high-quality research tools, and unparalleled technical support.
	Scilogex	SCIOLOGEX is a brand of innovative and unique laboratory products for all areas of research. Every product has been carefully selected for quality and priced to meet your budget so your lab can operate at its highest level of efficiency. Our goal is to provide great products, Rutgers pricing and service support
	Spectrum Chemical	Spectrum Chemical Mfg. Corp. is unique in the chemical industry, boasting one of the largest selections of fine chemicals while also remaining a family-owned business for nearly fifty years. We are an FDA registered manufacturer and distributor of fine chemicals and laboratory products with the largest selection of USP-NF-FCC chemicals for manufacture of food, drug and personal care products available from a single source.
	StemCell Technologies	STEMCELL specializes in developing cell culture media, cell separation systems, instruments and other reagents for use in life sciences research across the basic to translational research continuum. Our products are designed and developed by highly trained, world class scientists to streamline research protocols, reduce experimental variability, and increase the accuracy of results. We develop our product lines to support entire experimental workflows, from cell isolation through characterization, expansion, differentiation, maintenance and storage, and are always looking for ways to further support our customers through training, knowledge and new products. STEMCELL's Research and Development team often collaborates with academic partners

	<p>VELP</p>	<p>Established in 1983 by Ermete Passoni, VELP Scientifica is today one of the world’s leading manufacturer of analytical instruments and laboratory equipment that has made an impact on the world-wide market with Italian products renowned for innovation, design and premium connectivity.</p> <p>VELP is a family-owned company in its second generation of leadership and is recognized globally as a premium supplier of high-quality elemental analyzers, Kjeldahl analyzers, solvent extractors, fiber extractors, oxidation stability reactors, stirring and mixing equipment, respirometric test, BOD and COD.</p>
	<p>Victory Scientific</p>	<p>See why products like our handheld UVC wand, PCR and qPCR machines make us a better solution for your lab or business.</p> <p>Victory Scientific's roots are in the research laboratory, where we have supplied instruments and products from the start. In our experiences we found a wand that was used in the UV illumination of DNA, which was able to be adapted to a powerful disinfectant wand for industry. We now supply research products as well as scientifically tested and proven disinfection products.</p>
	<p>VivaProducts</p>	<p>Vivaproducts has been supplying the highest quality products to the clinical diagnostic marketplace for over 20 years. In 2008 we began offering new products for the purification of DNA in the forensic laboratory market. Our strong R&amp;D will help us continue to expand our product offerings to include high quality instruments and equipment for the benefit of our customers.</p> <p>We provide the widest assortment of concentrators</p>
